Ardmore, Wednesday, August 7, 1912

DON'T KILL THE BEDBUGS.

Charles E. Prather, Ph. D., of Den-
 ver has discovered that it is a sin to
 kill bedbugs, to kill mosquitoes, to
 kill flies, or even to kill ants.

The gentleman states that the Di-
 vine power which imbued man with
 life did not give him the right to take
 even organic, much less animal life.
 By lying down at night and bringing
 the thought waves into action, the
 one, resting upon a bug-infested bed,
 trying to sleep in a mosquito-laden
 atmosphere, the most voracious and
 insatiable blood-suckers of both the
 winged and the unwinged varieties
 may be made to beat a hasty and an
 ignominious retreat to another "hay
 pile."

The gentleman from Denver, at an
 altitude where one will have to break
 the ice on the water pitcher three
 hundred and sixty-five and one-quar-
 ter mornings in the year, or else go
 unwashed to his breakfast, may be
 right in the stand he has taken. By
 waiting until midnight to retire and
 then neglecting to draw about his re-
 cumbent form the sheets and blank-
 ets of his couch, he may co-mingle
 his thought waves with the ice-laden
 air and the mosquitoes will stay in
 their frost-bitten condition of coma
 and the 14 bugs remain peacefully
 sleeping in the cracks and joints of
 the bed.

Living, breathing and sleeping un-
 der these conditions, one may permit
 his nature to become imbued with
 the idea that it is unrighteous to swat
 the fly, to massacre the mosquito and
 squash the festy, bedbug. But down
 in this section when the winged de-
 scendants of the vampires of the Jer-
 sey swamps claim consanguinity rela-
 tionship, when the gentle fly wanders
 over the naked dome of thought and
 the nimble bedbug, though he has
 no wings, wanders up and down the
 sleepers spine—then, whether it be
 right or wrong, whether the mosquito
 or the humble bedbug be under the
 direct protection of Deity or not, then
 the average man has murder in his
 soul and, forgetting all the teach-
 ings of over six thousand years of

slowly advancing civilization, be-
 comes for the time a primitive being.
 With a swat, a bang and a flounder,
 with an anathema against the climate
 and the non-screened windows and
 against the saving disposition of the
 landlady which prevents her, in the
 name of humanity, from buying insect
 powder for humanity's sake, the deed
 is done and the life of one of the
 creations of Omnipotence has joined
 the band on the bright and shining
 strand of which poets have sung
 and harpists have harped since the
 first house-cleaning day when the ark
 grounded on the top of Arrarat.

The average man might be willing
 to surrender his claims on a large
 and juicy porterhouse, because the
 beef from which it was taken may
 not have died a natural death, but
 the members of the medical profes-
 sion will not, for several years sur-
 render their claim that the fly is a
 spreader of disease germs and there-
 fore his execution should be legal-
 ized, nor will the man with the bald
 head or rosy-tipped nose believe its
 execution anything but justifiable.
 Neither can the poor layman be
 brought to believe that thought waves
 will banish the singing bands of
 winged marauders, nor the perfumed
 night wanderer of blood-letting propen-
 sities.

When the time comes that one can
 sit beneath the buzz of the gentle
 house fly and banish it by thought
 waves; when through, the same medi-
 um, he can cause the mosquito to
 vanish into the stilly night and the
 bedbug to rest in calm indolence
 while he sleeps in rest-restoring re-
 pose, then the day of the millennium
 will be at hand and the lion and the
 lamb will lie down together.

A Good Show at Tent.

Dubinsky Bros. Stock Co., opened
 a week's engagement last night in
 their big waterproof tent located on
 corner of Main and C streets.

The opening play was a highly in-
 teresting society comedy-drama en-
 titled, "The Mansion of Aching
 Hearts." The play was a good one
 and the company is by far the best
 stock organization that has ever been
 seen in Ardmore. The leading man
 and woman—Mr. Ed Dubinsky and
 Miss Irene Daniel—were the leading
 players with "The Common Law Co."
 which appeared at the Robinson opera
 house last November at dollar and a
 half price. Local theater goers
 who were fortunate enough to see
 them will remember the remarkable
 work they did in that play, also that
 they were the handsomest pair ever
 seen here with a theatrical company.

Every summer they head their own
 stock company, as a sort of vacation,
 and at the same time keep in trim
 for the following season. The fact
 that this clever pair is with the com-
 pany will no doubt be the means
 of attracting Ardmore's best theater
 goers.

They have a good supporting com-
 pany, and deserve the patronage of
 the best.

Tonight the company will present
 "When Women Love," a 4-act com-
 edy-drama. High class vaudeville
 specialties will be introduced between
 acts. The company carries its own
 orchestra of ten.

Champ Clark Renominated.

Montgomery, Mo., Aug. 6.—Speaker
 Champ Clark was renominated for
 congress in this, the Ninth District
 of Missouri, at the primaries today
 without democratic opposition.

SLEEP

Did you, sleepless one, ever try a dish of GRAPE-
 NUTS and CREAM just before bed?

Sure you never did or you wouldn't train with
 the "sleepless squad."

It's a Bad Practice to load up the stomach with a prom-
 isuous variety of rich, indigestible food at night because it "tastes"
 good.

Strength Without Bulk is a requirement of an ideal food for
 the last bite before going to bed. The food that is concentrated
 so that a sufficient amount for all purposes will not dis-
 tend the stomach; the food that is practically pre-digested so the organs
 can, without undue effort, absorb it wholly; the food that con-
 tains the tissue-repairing and energy-making elements from clean
 field grains—that contains the Phosphate of Potash which com-
 bines, by vital process, with albumen to repair the gray matter
 in brain and nerve centres—that's

Grape-Nuts

Try a Dish—about four heaping teaspoonfuls with cream, and
 a little sugar if desired, eaten slowly before retiring, if you're
 hungry, and note how well you sleep and how fresh you feel in
 the morning.

"There's a Reason"

Away With the
 Corn Dentist!

"BINGO" Beats Knife and Chisel

Have you a corn, callous, bunion,
 wart? Use judgment—use "Bingo."
 Don't try to slice it off or dig it out—
 don't run risk of blood poisoning.
 Don't let corn surgeon cut or sand-
 paper your feet. How can he know
 how deep to go without hurting you—
 without drawing blood? Why pay him
 more for just temporary relief than
 a whole bottle of "Bingo" costs (2
 bits)? Don't use sticky plasters with
 thin coating of dope to affect surface
 only—with straps to bulge the stock-
 ing—Increase pressure against tender
 painful spot—and make you wear larger
 shoes.

Bingo's better, quicker, safer, more
 thorough. Gets rid of these pests en-
 tire. Always pain and inflammation
 quick's a wink. Corn or callous shriv-
 els up—you pick it off, throw it away.
 Harmless to normal flesh.

Bingo's 25c at drug stores, or sent
 direct by Dennison Pharmaceutical Co.,
 111 No. Dearborn St., Chicago, Ill. Sold
 in this city by H. Fred Snider, 103 W.
 Main St.

WHEN WALKING WITH LADIES

Nearly Every Country Has Its Own
 Ideas as to Place of Male Escort.

Almost every country has its own
 fashions for men who walk with ladies
 on the public streets. In America and
 in England we walk on the side of the
 lady that is nearer the street. Many
 years ago when the streets were not
 kept as clean as they are now, any
 person walking on the outer edge of
 the pavements was likely to get well
 splashed with mud and rainwater, and
 that is why the gentlemen took that
 side, so as to save the ladies' fine
 clothes.

In some countries it is considered
 better for the gentleman to keep near-
 er the middle of the pavement in or-
 der to preserve the lady from jost-
 ling of persons going in the opposite
 direction in a crowded street. When
 it is the rule for every one to keep
 to the right those who are on the
 left of the two passing streams are
 continually being bumped into. In
 Germany the gentleman always keep
 on the same side of the lady, no mat-
 ter which side of the street they may
 be on or which way they are going.

Money Value of Women.

If you are a married woman, and
 were asked to tell just what you were
 worth in hard cash to your husband,
 what figure would you name? The
 question is not a fanciful one by any
 means, but has been a subject of judi-
 cial consideration.

It was this way: The wife of a
 Iowa farmer bought a gallon of what
 purported to be kerosene, but which
 was afterward shown to be 21 per
 cent gasoline. When the woman used
 some of it to start a fire with the stuff
 exploded, and she was burnt to death
 and her three children were seriously
 injured. The woman's husband sued
 the dealers for damages and the jury
 awarded him \$25 for the loss of his
 wife and \$299.71 per child on account
 of injuries.

The defendants evidently thought
 that a woman was not worth \$25, for
 they took an appeal from the verdict.
 The learned court, however, declined
 to look at it in that light, and the
 judgment was affirmed.—New York
 Mail.

Church on the Sahara.

The African Desert of Sahara, 932 by
 2,484 miles, is a Vicariate Apostolic.
 Its population is about 4,000,000. With
 the Vicariate is attached the Sudan.
 The European Catholics number 1,000,
 negro Catholics 600. It has 4,000 cate-
 chumens, 40 missionaries, 15 Sisters,
 12 church, 10 schools, 7 orphanages,
 5 hospitals, of which two are for
 lepers.

Whales May Live 500 Years.

The land animal which lives the
 longest probably is the tortoise. Un-
 der favorable conditions it will live
 to an age of 350 or 400 years. One
 died at the London Zoo which was
 said to have attained the age of 350
 years. The ordinary whale lives to
 be 500 years old. No other animal
 of the sea lives to be that old.

Very Few Copperheads.

The copperhead, although deadly
 venomous, seldom attains a length of
 more than three feet, and is, fortu-
 nately, not plentiful, comparatively few
 people having ever seen one. Its fa-
 vorite habitat is a rocky, mountainous
 woodland, and never an open meadow.

EARLY RETURNS
 FAVOR OWEN

CONTINUED FROM PAGE ONE.

In today's election," was the mes-
 sage ex-Governor Haskell gave to
 the Galveston-Dallas News Bureau by
 long-distance at midnight. "I am in-
 formed that republicans by the whole
 sale voted in the democratic prima-
 ries, notably in Muskogee county and
 in Washita, as well as in other coun-
 ties, and in each instance Senator
 Owen is able to claim a heavy vote
 for that reason. If I have been de-
 feated by democratic votes, of course,
 that settles it, for I am a democrat;
 but if the Jim Harris Aid Society has
 done what they threatened, and what
 was contrary to law, I probably shall
 investigate."

Congressman at Large.

There is nothing authentic in the
 race for congressman at large save
 that Bill Murray is either first or sec-
 ond in all the counties heard from.
 His friends here claim that the Tish-
 oningo man ran either one, two or
 three in every county in the state,
 thereby carrying the state at large.

Claude Weaver of Oklahoma City
 said tonight that he had assurances
 he had carried the state. The heavy
 votes in the section were for Weaver,
 Murray, Lanson, Pruett, Thompson,
 Robertson and Echols.

Hayes of Durant ran second in
 Pawnee county. The only reports
 from the congressional races show
 that Scott Ferris in the Fifth and
 Ed McGuire in the First districts
 have probably been nominated.

An unconfirmed report late tonight
 says that John B. Turner, chief jus-
 tice of the supreme court, has been
 renominated from the Muskogee Vin-
 tilla district.

Political leaders claim that the Or-
 egon plan for direct election of
 United States senators, which was
 separately submitted today, had been
 adopted, although practically no re-
 ports thereon have been received.

Early Morning Estimate.

Majorities at 1 a. m. Wednesday re-
 ported heavier than expected from
 southwestern counties caused Owen
 managers to revise their estimate.
 They now claim a majority for the
 state of 30,000.

Late reports say Jackson will give
 Owen 900, Caddo 1,000 and Canadian
 600 majority.

ALABAMA LYNCHING.

Farmers Execute a Negro Who Had
 Killed White Man.

Demopolis, Ala., Aug. 6.—Sam Verge,
 a negro, was taken from officers late
 Saturday night near Halls creek, Ma-
 renzo county, near here, and riddled
 with bullets. His brother, Richard,
 heavily armed, is being sought by a
 posse and if caught the same fate
 will probably be meted out to him.

Vernon Tutt, a well-to-do farmer,
 was the employer of the negroes and
 Saturday evening had words with
 them about putting a team of horses
 out of the rain. Tutt struck one of
 the negroes with his fist and the other
 got possession of a shotgun in Gan-
 dy's store and they barricaded them-
 selves after driving Gandy and Tutt
 off. Later Tutt returned and was shot
 and mortally wounded. Gandy gave
 the alarm.

A large crowd arrived and not find-
 ing the negro in the store, went in
 pursuit and captured him.

MAORI GETS BRAVERY MEDAL

Australian Prisoner Rewarded for Sav-
 ing the Life of Trooper Who Had
 Arrested Him.

For the first time since its institu-
 tion says the London Daily Graphic,
 the Albert medal has been awarded to
 a Maori for gallantry in saving life,
 and the circumstances connected with
 this heroic act are so extraordinary
 that they are worth giving in full.

The recipient of the medal is an
 aboriginal native of the Roper River,
 Australia, named Neighbour, and the
 story of his brave act is given in the
 London Gazette in the notice announc-
 ing that the king has conferred the
 medal upon him.

On February 1, 1911, Neighbour,
 who had been placed under arrest, was
 being conveyed to the Roper River
 police station by a trooper of the po-
 lice force named Johns. The Wilton
 river, which was found to be in full
 flood, had to be crossed, and Johns,
 who was on horseback, and was hold-
 ing in his hand the neck chain by
 which Neighbour was secured, set the
 prisoner to swim in front of him, while
 he followed.

The horse got into difficulties in
 mid-stream, and before the trooper
 could clear himself he was kicked in
 the face by the animal and carried off
 by the current. Neighbour, instead of
 using the opportunity of making his
 escape, went to Johns' assistance and
 brought him ashore with great diffi-
 culty and at the risk of his own life.

Discontent.

We are never more discontented
 with others than we are discontented
 with ourselves. The consciousness of
 wrongdoing makes us irritable, and
 our heart, in its cunning, quarrels
 with what is outside it, in order that
 it may deafen the clamor within.
 H. F. Amiel.

 porch, beautiful shade trees, very
 desirable place for home with best
 garden and truck patch in the
 city. Price is right. One payment
 down, balance to suit. See Steve
 Noland or phone 402. 8-1m

LOW TONES ARE A SEDATIVE

Pitch the Voice Deep When Under
 Nervous Tension and Self-Control
 is Gained.

An excellent sedative for nervous
 excitement is found in using the voice
 at its lowest comfortable key. Imme-
 diate relief from stuttering is often
 obtained by dropping the voice from a
 high pitch to a lower tone. Teachers
 whose pupils become restless and un-
 ruly as they themselves grow tired
 and nervous will find that a low-
 pitched, quiet tone will relieve their
 own nervous tension, and prove won-
 derfully quieting to their pupils.

This simple expedient is also use-
 ful when you are trying to control or
 prevent weeping. There are times
 when a person fears to talk lest he
 break down and cry, yet must answer a
 question or carry on a conversation.
 Again, the deep lower tones of the
 voice, joined to slow, deep breathing,
 come to the rescue, and self-control is
 gained.

In any situation where one must
 struggle for self-possession, the low-
 pitched voice, with its impression of
